Entered as second-class matter October 30, 1905 at the post office at Tucumcari, New Mexico under act of Congress of March 3, 1879.

## Notice to Advertisers.

Everything in the advertising line will be charged by the week in this paper after January 1st, 1907. Display ads, will be the same as all ads, have been heretofore that changed weekly. The price is 15 cts. an inch—local liners 1 ct. a word.

Now, Thaw is to be tried for lunacy.

Yes, this is March, every symptom may be easily diagnosed.

It is hoped that the negro soldiers who have been ordered to West Point have no "Brownsville" ideas.

The Territorial Assembly adjourned Thursday, the 21st, let us hope that the next may be a state legislature.

The story that a Wisconsin man found \$5,000 under a carpet was probably started by the press agent of the "house-cleaners' union."

Taxation in Quay county will be greatly reduced next year. Our new territory to the north and the railway to the line of Texas will give us a lift that will be appreciably felt.

Hon. N. V. Gallegos has been successful in getting the greatest percentage of the bills he introduced passed of any member of the legislature. This paper will review them next week.

We don't hear a great deal about that district attorney bill and the dear people lately. Hon. M. C. Mechem, we are informed will continue to be our district attorney, all of which suits the Tucumcari News.

Governor Hagerman is still using the veto power, but the assembly also continues to pass measures over his veto. The bill authorizing the territory to assist in building county roads being the last veto, and which was passed over our executive by more than a two thirds majority.

The thirty-seventh legislative assembly is dead. Hon. N. V. Gallegos accomplished more for his constituency than any member of

the House. Our people are all praising him—even our annexed neighbors declare themselves as satisfied that House bill No. 61 is a just law, and they are proud of their citizenship in Quay county.

Wall street financiers have lately had a great experience with water, but Pierpont Morgan, who is crossing the ocean, has more than his share.

Kaffir corn, milo maize and sorghum are the cheapest and best feed for hogs that can be produced in Northeast New Mexico and the Texas Panhandle, and why it is that our farmers do not plant more of these and feed more hogs is a question that the farmers must answer themselves, as the editor of the News is up a stump for a reason. Hogs are always in demand and must always be until home consumption is supplied, and then an export trade may be tried for the surplus. There is no need of trying to farm in this country without stock in connection, and if the general demand for a money crop were answered by turning the kaffir corn, maize and sorghum into hogs and the hogs into money, it may help in the solution of the money crop problem.

## Governor Signs County Salary Reduction Bill.

Governor Hagerman has signed house substitute for house bill No. 31, the bill providing for lower salaries for the assessors and treasurers of the several counties. The governor has also signed the following bills: House bill No. 190, to regulate logging; house bill No. 193, fixing the time for holding terms of court in the First judicial district; house bill No. 124, to amend section 2355 of the laws of 1897; house bill No. 162, an act relating to the sale of lands in town sites; title to which is vested in the probate court; house bill No. 134, relating to the management of community land grants; house substitute for council bill No. 49, to amend the corporation law to exempt religious and charitable corporations from the necessity of making annual reports to the secretary; house joint resolution No. 6, providing for the transfer of the old Palace to the government; house bill No. 110 limiting the sale of native liquors; house bill No. 131, providing for the management of the Manzano land grant; house bill No. 188, to repeal chapter 6 of the laws of 1905; committee substitute for council bill No. 7, defining certain crimes and fixing their punishment; council bill No. 63, defining the property rights of husband and wife; house bill No. 124, providing for the management and distribution of the waters of the territory for irrigation purposes.
